

HEINI

**CYCLING,
TRIATHLON,
RUNNING
2025**

ABOUT US

Heini sports is a supplier of exclusive and high quality Cycling and Sportswear garments based in Toronto. Our core values focus on delivering unmatched quality at competitive prices, paired with exceptional customer service. From our design, development and testing in Europe, to our intrinsic production facilities in Italy and India and delivering the best custom apparels in every corner of the world.

QUALITY POLICY

Heini sports maintains rigorous quality control standards and we are dedicated to producing high quality garments with no exception. In every step of the process, in line and end of line, we utilize quality assurance supervisors; and our final inspections always maintain AQL 2.5 quality standards.

Our factory partners also undergo regular compliance and safety audits. Recent compliance certifications state that Heini sports absolutely does not tolerate labor violations, unsafe working conditions, harassment, or discrimination of any kind.

ECO FRIENDLY PROCESS

Heini Sport dye-sublimation process is the most environmentally friendly, sustainable process possible in garment printing & production and produces zero waste.

- It is completely waterless creating zero water waste. (Compared to screen printing which often results in polluted water waste and ground contamination)
- We use 100% lead free soy based inks
- Farm grown trees supply the paper used during the sublimation printing process
- The paper is even recycled after use, and all proceeds are donated to City of Hope Cancer Centers

WHY HEINI?(USP)

- Short and reliable delivery times - 3 to 5 weeks.
- No Minimum Order Quantity on any custom clothing.
- All of our design models have men's as well as women's fit.
- We employ only Italian and Swiss-based fabrics.
- We have an excellent price-performance ratio.
- All our products are produced based on moisture-wicking fabrics, aerodynamic designs, breathable mesh panels, or reflective elements for enhanced safety.
- All fabrics and products are tested by national, international teams and professionals before coming into the market.
- No extra charges for designing and shipping.(Except individual shipments)

Fit: Unisex

Size: One size

PERFORMANCE MEN & WOMEN

PERFORMANCE is characterised by stitched inserts in the central area and the use of the latest high-density foam. Its special shape guarantees maximum protection and excellent fit. The Soft-Touch fabric with antibacterial treatment and double-layer structure favours the absorption and transport of moisture to the outside, while the perforated fabric increases breathability for quick drying. The holes significantly increase breathability and air passage in the pad, giving a pleasant sensation of freshness and allowing the insert to dry in less time than other traditional products. PERFORMANCE is ideal for those who like to ride long distances.

YOUTH ORANGE

This seamless and molded pad is 4w elastic. The upper micro fibre is made of very soft and technical elastic fabric and the synthetic rubber foam inner lining adapts perfectly to the body. It is a single density chamois created by our designers to provide the best overall fit and comfort covering and protecting all contacts and chafing zones.

Top layer: 82% Polyamide 18% Carbon, 170 GSM

Bottom layer: 100% Polyamide, 90 GSM

Foam: 10 mm

Density: 60

Measurement: 14 cm x 26 cm

CLASSIC ORANGE

This seamless and molded pad is 4w elastic. The upper micro fibre is made of very soft and technical elastic fabric and the synthetic rubber foam inner lining adapts perfectly to the body. It is a single density chamois created by our designers to provide the best overall fit and comfort.

Top layer: 82% Polyamide 18% Elastane, 170 GSM

Bottom layer: 100% Polyamide, 90 GSM

Foam: 10 mm

Density: 60

Measurement: 19 cm x 32 cm

TRIATHLON GREY

Pad in bi-elastic fabric for perfect fit and freedom of movement. The high-density foam provides high degree of protection.

Top layer: 82% Polyamide 18% Elastane, 170 g/m²

Foam: 4 mm

Density: 90

Bottom layer: 100% Polyester, 70 g/m²

Measurement: 15 cm x 31 cm

LUCKY BLUE

LUCKY is a pad with soft sewn-in laps that perfectly support the area between the saddle and inner thighs. Made with bi-density padding distributed in both the ischial and perineal area, it is perfect for road and MTB rides. LUCKY is designed with a central channel that helps to reduce pressure on the male genitals. LUCKY combines the benefits of multi-directional channels with the benefits of a surface where two special gradual transition zones work to ensure a perfect fit and increase stability in the saddle. LUCKY uses a Soft-Touch fabric with antibacterial treatment, which facilitates the collection and expulsion of sweat thanks to its multidirectional channel structure.

ELITE BLUE

Seamless microfiber pad with two different density areas. The high quality inner foam absorbs all saddle vibrations. It offers excellent comfort and freedom of movement with anatomic fit protecting contacts and chafing zones.
 Top layer: 82% Polyamide 18% Elastane, 170 GSM
 Bottom layer: 100% Polyamide, 90 GSM
 Foam : 8 mm + 4 mm
 Density: 70 + 40
 Measurement : 20cm x 36 cm

MARATHON GREY

This pad is ideal for long rides. A high density foam is inserted in the rear part of the pad allowing for excellent absorption of vibrations when riding. So popular and appreciated. Extremely light weight with three dimensional density pad with excellent freedom of movement.

Top layer: 82% Polyamide 18% Elastane, 170 GSM
 Bottom layer: 100% Polyamide, 90 GSM
 Foam: 10 mm
 Density: 90+60 + 40
 Measurement: 18 cm x 35 cm

YELLOW

The Yellow Pad is a dual-density, thermoformed cushion designed specifically for women, with padding strategically placed in both the ischial and perineal regions, making it ideal for both road and mountain biking. Yellow integrates the advantages of multi-directional channels with a surface that features three distinct gradual transition zones to ensure an optimal fit and enhanced saddle stability. The Yellow Pad employs a Soft-Touch fabric treated with an antibacterial agent, which aids in sweat absorption and expulsion due to its multi-directional channel design. This pad is ideal for long rides.

Top layer: 80% Polyamide 20% Elastane
 Bottom layer: 100% Polyamide
 Foam: 11 mm + 3mm
 Density: 80 + 120
 Measurement: 30 cm x 20 cm

CARBON MEN & WOMEN

This pad has the perfect fit. The carbon fibre of the fabric is thermostatic, regulates the body temperature in an optimal way and stimulates the blood circulation. It has been studied to adapt perfectly to the body and absorb all vibration when riding.

Top layer: 95% Polyamide 5% Carbon, 170 GSM
 Bottom layer: 100% Polyamide, 90 GSM
 Foam: 10 mm
 Density: 7 mm/80-3 mm/120
 Measurement: 21 cm x 36 cm (men)
 19 cm x 28 cm (women)

CUT

CUT PAD, a pad developed with a foam of 90 density (kg/m^3) and a thickness of 16 mm, which guarantees long protection and freedom of movement when cycling. The black perforated fabric with 2 mm holes significantly increases breath ability and air passage in the pad, giving a pleasant feeling of freshness and allowing the insert to dry out in less time than other traditional products. The shape of the bottom support composed of the latest generation of high density foam is obtained by milling a single block of polyurethane, this allows for maximum support of the body in the saddle, the soft side wings avoid unpleasant rubbing against the inner thighs. The pad is preformed. The density 90 obtained with the latest generation of foam allows rides of up to 6 hours without problems.

EVO WOMEN

EVO PAD WOMEN, a pad developed with 60-density (kg/m^3) foam and a thickness of 14 mm, which guarantee long protection and freedom of movement when cycling. The soft grey fabric adapts to the female form and provides a pleasant feeling of freshness during use. The shape of the bottom support, made of the latest high-density foam, is obtained by milling a single block of polyurethane, which provides maximum support by adapting to the female form, and the soft side wings prevent unpleasant rubbing against the inner thighs. The pad is preformed. The density 60 obtained with the latest generation of foam allows rides of up to 4 hours without problems.

CARINA

CARINA is a thermoformed pad that offers good protection for road use, designed to offer efficient performance in terms of protection, comfort and freedom of movement, specific design for the female anatomy, construction with minimal volumes and multi-layer foams, reduced profile, very light construction, Soft-Touch upper fabric with anti-bacterial treatment, the perforated foam significantly increases breathability and air passage in the pad, giving a pleasant sensation of freshness and allowing the insert to dry in less time than other traditional products.

FABRICS - CARE INSTRUCTIONS

To ensure a long life of our high quality fabrics, please consider the following:

1. Do not wash our products with temperatures above 30 degrees, use mild detergents, and avoid fabric softener and bleaching agents.

2. Do not use a dryer! Let our products preferably dry naturally. Please note that direct sunlight and direct heat may cause deterioration of the fabrics.

3. Do not iron our products.

4. If you are unsure of your own size when trying on one of our size samples, choose the slightly larger size, as fit can vary depending on body weight and build – please note that our sizes are just an indication.

5. To avoid fabric deterioration:

- Do not leave shorts in your laundry bag for a week - wash them straight after use.

- Do not leave our shorts in humid places or plastic bags.

- Avoid contact with velcro fasteners, which can cause pilling.

- The wearing of backpacks can generate friction and thus damage the fabric.

6. All technical garments must be used exclusively in the discipline for which they are designed in order to best use the technical features of the materials with which they are made.
